To our growing list of customers; We thank you for your patronage and for your feedback.

This release includes some bug fixing, performance improvements, more stable installation and several enhancements that have been requested.

What's New?

More payment options:

- Minimum party size to charge
- Charge by seat, not just a flat charge.

User interface improvements:

- Allow Date Change via "Add/Edit Reservation" Dialog, without changing the date/time of the desk.

More advanced user integration:

Added fields to the Reservation object for "Creator" and "User", to keep track of which user took the reservation (in the Reservation Desk) and also tracks "registered users" that made the Reservation via the Reservation Wizard.

Some Tweaks

Configuration option for how long to hold a table during reservation wizard as well as how long to hold a table while waiting for payment.

- Installation reliability improvements
- Improved Language Support
