
Capturing customers email addresses

Posted by Tableguy - 2008/04/21 20:40

Hi

Is there any way to get and save the email addresses of all customers who order online with tableboss? The owner wants to be able to email his customers the next day and ask them how the food tasted and how the service was.

Thanks

=====

Hi Rikki,

Refer to the documentation on "Reports" in the User Guide.

http://tableboss.com/component/option,com_helpserver/Itemid,47/lang,en/#article%3A52

Report Type:

This drop down offers the following reports;

- * Reservation List
- * Contact List

Report Interval:

This drop down offers the following reports;

- * Today
- * Today and Tomorrow
- * This Week
- * Next Two Weeks
- * Complete
- * All Future
- * All Past
- * Custom Date Range

Output Format:

- * Microsoft EXCEL (XLS)
- * Comma Separated File (CSV)

Regards,

=====
