Hi...  
My site is not drawing some graphics (like table icons). Do you have an idea about what's going on?

To be honest I'm not sure. I did move the TLD to its primary position recently, but I was sure the graphics followed me.

Mark, that's right sorry to bug you with this. I even commented originally that I would remember! Oh well that's the beauty of these forums. Anyways I applied the statement again and it worked of course!

Thanks
